

Foundations of Comprehension and Number Skills Professional Learning

Hosted By Joondalup Education Support Centre (JESC)

August 11th, 2026

8.30am-3.00pm

Joondalup Resort, Perth

What is Foundations of Comprehension?

Foundations of Comprehension is a literacy based, alternative conceptual approach to developing the pre-requisite foundational skills required to develop comprehension fluency. This program is broken down into four modules to scaffold the teaching of comprehension skills from a Foundational Skills level to text-based comprehension skills.

What is Foundations of Number?

Foundations of Number is an early learning approach to establishing and strengthening key number concepts that will enable consistent progression through Math curriculum.

 Included Resources:

- ✓ Foundations of Number Program
- ✓ Foundations of Comprehension Program
- ✓ Number Network
- ✓ 1-5 visual matching symbolic numbers
- ✓ 1-10 number line
- ✓ Pattern Strip
- ✓ Symbolic Ordinal Numbers

 Who Should Attend?

- School currently using the Foundational Skills Assessment
- New schools considering implementation
